PERSONAL AND LOCAL

We are the moving men. Tropico Livery and Express.

Wayne V. Frank spent Sunday with friends at Long Beach.

Don't forget we have the only piano truck in Tropico. Give us a trial; Tropico Stable.s

Dr. Arthur M. Duncan, physician and surgeon of Los Angeles, is preparing to put a residence near the Post Office.

Mr. and Mrs. J. S. Ripley of Pueblo, Colo., are spending the winter with their son Noble of the Davis Grocery Company.

Mrs. William G. Robinson is living with her daughter, Mrs. D. Farrow, on Doran street, Glendale, since her husband's death.

Mr. andMrs. Lamar Costello of Salt Lake City, are the guests of Mrs. Costello's sister, Mrs. Gus Kroeger, at the residence og Mr. and Mrs. Kreoger, Cerritos Avenue.

E. L. Young, the popular proprietor of the Tropico Light and Stove Company has moved into the more commodious quarters lately occupied by the Davis Grocery Company a few doors south of his former place of business. The move is made necessary by a well deserved increasing trade.

The proposed abandonment of the Temple Block for the High School grounds on 5th street as a site for adequate City Hall is a project that has neither the merit of common sense nor economy. The convenience of the North East including the San Fernando Valley is as much in this matter as is that of the Southwest.

The city of Glendae has called another annexation election, to be held on the 12th of February, the anniversary day of Lincoln's birth and a legal holiday. The election was called on a petition that had upon it the names of 200 citizens of the territory proposed for annexation. Although encountering a small storm of opposition the proposition will probably carry.

Mr. E. D. Goode of Glendale is sustaining his reputation as a promoter of electric railways. Thus far his achievements have been fairly successful. At present his "scheme hatchery" is incubating a line from Glendale into Griffith Park, that to meet an extension of the Inter-Urban line from Ivanhoe Power House.

The Glendale NEWS reporter is mistaken as to the reason of the delay in the improvement of Glendale Avenue. The intimation that the improvement has been "held up" by the Board of Trustees for sinister purposes is unjust. As soon as the people along the line of the street were ready for it proceedings were instituted and all work finally started.

If the Glendals NEWS would depend on the Tropico SENTINEL for ALL its Tropico news it would not be led into its mistates, as in the case of Glendale Avenue improvement. The trouble, City Engineer Lynch has had in getting that street improved has been explained in the Sentinel several times.

A new silken flag was presented to N. P. Banks Post of G. A. R. by the the ladies of the Relief corps on Firday of last week on the occasion of the installation of officers newly elect.

Arroyo Seco, along which easterners enter the City of Los Angeles over the Santa Fe route is indeed an "ugly scar" as the Highland Park Herald well remarks,—a scar that the great city should take it upon itself to obliterate.

The Edison Electric Company has reduced its rate for electric lighting service to the city of Inglewood to 9 cents per kilowatt hour, whereat the Inglewood NEWS proceeds to remark that "is is safe to say that no other improvement has ben introduced in our city which has proved so welcome and at the same time given so much satisfaction as the lightinng of our streets, and it is a pleasure for the public to realize that they are being served by a company which apparently has some regard and consideration for its interests as well as its own."

Save your coupons from Ashton's Grocery, they are valuable.

Bread and **Pastry Goods** that will make your mouth water, **At Ashton's,** Glendale Avenue and Cypress street.

Mr. John Rathmel has sold the Tropico Market to W. E Edwards and P. E. Gilmore, well known men in the San Fernando Valley.

Regulating the speed of automobiles by ordinance or statute, to "miles per hour" has had its day and in its place is the rule of reason.

M. O. Ayres, capitalist and banker of Dakota City, Nebraska will spend the winter with his brother S. A. Ayres and sister Mrs. N. C. Burch of Tropico. He arrived Monday.

O. C. Logan, proprietor of Espesero de Verdugo store and market has moved his family residence from Central Avenue to Dryden street, Casa Verdugo.

Howard Crane, formerly with Newberry's, Glendale, has been engaged to drive the auto delivery at the Tropico Mercantile Company's store, San Fernando Road and Central Avenue.

If you are looking for a bargain, as an investment or to make an exchange, see the Sentinel Realty Dept., Phone Glendale 24-R.

Speculation over the components of a City Ticket is rife, but seems to have settled upon the following: For Trustees: Emil Fram, Peter Ferry, D. Griswold, W. Wattles and J. B. Treadwell.

The annexation of the arctic regions to the East and Middle West seems fully established and the frost-bitten fugitives therefrom are exceeding the speed limits to get away to California.

To have a free-delivery of mail in the city all its residences must be numbered. The expense of the house numbering is a mere trifle. The metal numbers can be obtained at McKenney's without much expense.

Shuey is rushing registration of voters for all there is in it. The act of the extra session of the legislature providing for a registrar of voters in each county has been signed by the governor. For voting at elections before fall the existing registration will be used. For such elections a new registration is unnecessary.

The failure and refusal of a large number of householders in the city, to observe the requirements of the ordinance for numbering houses is the obstacle in the way of a free-delivery of mail by the postal service. Mail to an address without the house-number of the person addressed will remain for delivery at the Post Office.

The residence of Fred C. Richardson was burglarized some time during Tuesday night last. No booty was obtained, at least nothing of any value is missed. The inmates were not disturbed and aside from the disorder in which several rooms were left there was nothing to indicate the presence of the would-be robbers.

Mrs. B. P. McNair and children Chester, Sarah and Bennie from Great Falls, Mont,, arrived in Tropico past week and are stopping at the home of S. E. Brown at 1245 Blanche Avenue. The children are attending the Tropico school, and will remain for a length of time. Mrs. McNair and Mrs. Brown were schoolmates in their younger days in Gouvenuer, N. Y., and have been renewing old acquaintances.

In the Jewel City Undertaking Company, who are advertising their business in another part of this paper, the cities of Tropico and Glendale and surrounding country are provided with as complete an establishment of its kind as there is in all Southern California—including the City of Los Angeles. With an experience of twenty years in the business, a large and completely assorted line of caskets, of both costly and inexpensive finish and exceptional durability, and an equipment elaborate and efficient in all its appointments. There is every reason that the establishment should share largely in the patronage of the public.

The three cotton bolls on exhibition in the Sentinel office windows are fair specimens of the crop now being harvested on D. H. Imler's plantation in the Imperial valley. The cotton is from a field of 80 acres, of which the present is the third picking. The yield of the field is three bales to the acre, or about 240 bales in all, of an average of 650 pounds each. The product was inspected by a New Orleans dealer a few days since, and was by him pronounced to be the finest he had ever seen. The ruling average price of raw cotton is 8.5 cents . But Mr. Imler has sold at 8.8 cents—being an aggregate for the entire crop of $13,728 gross. Besides the cotton Mr. Imler has a large drove of hogs from which his profits will be large.

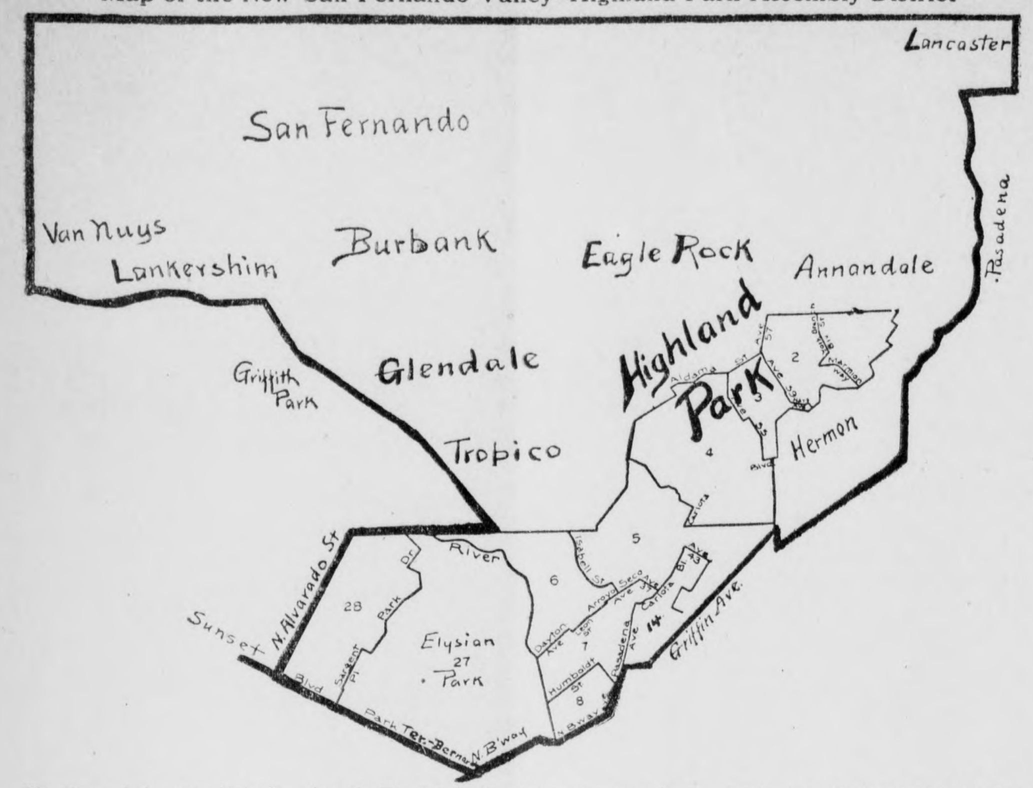
Map of the New San Fernando Valley--Highland Park Assembly District



The lines of the new Sixty-first Assembly district are very well out-lined in the above map. The district now comprises eleven city precincts, numbers 1, 2, 3, 4, 5, 6, 7, 8, 14, 27 and 28, and all of the northern portion of Los Angeles county, including the San Fernando and Antelope valleys, La Canada, La Crescenta, Eagle Rock, Annandale and Hermon. The city portion of this district is known as Highland Park, with the exception of a few precincts. Precinct No. 6 contains the Los Angeles Railway Company barns and that precinct, as well as Nos. 7 and 8, is the home of many railway employes. Precinct No. 27 is Elysian Park, and precinct 28 is a fine residence precinct in the hills north of Echo Park and west of Elysian.

The balance of the new assembly district is prospectively the richest empire in Southern California for the development of the San Fernando Valley during the next ten years will entitle the district to a congressman instead of an assemblyman. And the assembly candidate who traverses its two thousand and more square miles of territory, and who faithfully represents its interests in the legislature during that length of time will have earned a seat in congress.—Highland Park Herald.

Brother C. H. Randall has mapped out nicely a field for his paper and for himself. May he travel over all this territory for ten years and be its first representative in congress. East Los Angeles is cut in two, like a dog's tail, but the stump may be strong enough at times to wag the whole dogon dog.

The whole of the Arroyo Seco is in Randall's district and he is not only a member of the assembly but of the Park Commission. Now go to it, Randall and McKenzie as a strong team to land this Arroyo Seco parkway and the securing of a fine approach all the way from the Court House to Highland Park.

East Los Angeles **News**, Highland Park **Herald**, and East siders generally are clamoring for the reclamation of Arroyo Seco and the restoration thereof to its primitive state of grandure and beauty from the Pasadena city line to Los Angeles river. Its a preliminary step, annexation to Los Angeles is proposed. This would bring the matter under the Los Angeles Park Commission and insure success to the grand idea.

The impression is growing upon all that the distinction between the Socialist and a progressive is without much of a difference. As is well said by C. H. Rowell of Fresno: "It is in the demand for political reform that marks the difference between the progressive and the Socialits. The Socialist does not care about political reform; he demands economic reform. But the progressive believes that with political reform will come economic reform."

COST AND PROGRESS OF OWENS AQUEDUCT

(From Mulhollands recent report.)

Up to Dec. 1, 1911, the cost of this great project was $19,717,057.

One hundred and sixty-seven miles of excavation and one hundred and thirty miles of tunnels are completed.

A saving of $1,000,000 was effected in salvage.

80.2 per cent of the appropriation has been used.

Estimated 'that the work will be completed early in the year 1913.

The completion of this aqueduct will mark one of the greatest municipal achievements of the age, and notwithstanding the opposition encountered and the many hindrances placed in the path of progress, it will be a lasting boon to the city, a credit to its promoters, and a master work of its builders.—Wiliam Mulholland.

They are capable of rebuilding a machine from start to finish. Located near the crossing of the great foot-hill and noted San Fernando Road lines of automobile travel, they will be sought from all directions for their reliable services. We look to see their shops filled with work from all quarters, and a big business develop.

THE READING HABIT

Whatever else the youth may acquire in the years of his school life, there should result a taste for reading which should direct and inspire his intellectual and moral life. The schooling which results in this hunger for increase of mental endowment, has unsystematic or intermitant the schooling may have been, has achieved the main end of elementary education; and that schooling which does not result in implanting this desire, has failed. Guided and animated by this inner urge to acquire knowledge and exercise his imagination, through reading, the individual will continue to educate himself all through life. Without that deep rooted impression—without that truth-quest and beauty-thirst the new resources of the present; and, as he grows older, he will live in a mental atmosphere which is always growing thinner and emptier.

Do you not know hundreds of people who seem to be living in a mental vacuum to whom, indeed, we have great difficulty in attributing immortality, because, apparently, they have so little life,except that of the body? Fifteen or twenty minutes a day would have given one of this mutitude of stolids a really HUMAN LIFE.

Another annexation election has been called by the board of trustees of Glendale, to be held Feb. 12. Annexation of Casa Verdugo, North Glendale and Verdugo Canon is the question. If the election carries, the remote boundary line of the city will lay about five miles from the city hall. Some opposition is shown by residents in the new territory, because the proposed lines do not include Verdugo wash, while managers of the Western Empire Suburban Farms company, who are making extensive improvements in Verdugo Canyon are objecting strongly to the movement because their property is included in the boundaries.
